Ordered, that a copy of the warrant, together with the answers returned by the woman to the inquiries annexed to Commissioners' letter of 21st June 1864, be forwarded to them by the clerk, with the copy of Guardians' Minutes of this day.

No. 2.—Copy Warrant referred to in foregoing Minute, dated 6 January 1866.

To the Guardians of the Poor of the Township of Toxteth Park, in the County ot Lancaster, and to the Guardians of the Poor of the Wexford Union, in the County of Wexford, in Ireland.

County of Lancaster to Wit.

Whereas complaint is now made by the Guardians of the Poor of the said township of Toxteth Park, in the county of Lancaster, unto us, the undersigned two of Her Majesty's justices of the peace in and for the said county in petty sessions assembled at Liverpool in the said county of Lancaster, that Elizabeth Finn, now present, aged 32 years, a person born in Ireland, hath become and is now chargeable to the said township of Toxteth Park. And whereas upon examination of a competent witness, taken upon oath before us, it doth appear to our satisfaction that she is of the reputed age of 32 years, and was born in the parish or place of Howlot, in Ireland, and that the last place of her residence for the space of three years in Ireland was in Howlot aforesaid, and that she hath not a settlement in England, and is not otherwise exempt from removal; and that she hath four children, videlicet, Margaret, aged thirteen years, John, aged eleven years, Thomas, aged eight years, and Mary, aged four years or thereabouts, which said children have gained no settlement in England, and are not otherwise exempt from removal. And whereas we have duly examined the said Elizabeth Finn, and as to the state of health of herself and of her said children, and are satisfied that they are respectively in such a state of health as not to be liable to suffer bodily or mental injury by removal to Ireland under this warrant.

These are therefore to require you, the Guardians of the Poor of the said township of Toxteth Park, to cause the said Elizabeth Finn, with her family, to be safely conveyed from and out of the said township of Toxteth Park to the said union of Wexford, in Ireland, to be delivered at the workhouse of the said union of Wexford.

Given under our hands and seals this sixth day of January in the year of our Lord One thousand eight hundred and sixty-six.

John Campbell. (L. S.)
T. O Underwell. (L. S.)

Sir, Poor Law Commission Office, Dublin, 19 January 1866.

The Commissioners for administering the laws for relief of the poor in Ireland acknowledge receipt of the warrant for the removal of Elizabeth Finn and her family from the townland of Toxteth Park, together with answers to the usual inquiries in regard to her previous residence and other particulars relating to the removal; and, in reference thereto, the Commissioners desire to inform the Board of Guardians that they have thought it right to instruct their inspector, Mr. Hamilton, to examine the woman on oath on the subject of her removal, and also in reference to her husband's place of birth and previous residence, and the circumstances under which he left her.

The Commissioners will address the Board of guardians again on receiving Mr. Hamilton's report; and, in the meantime, they suggest that application should be made to the guardians of Toxteth Park for a copy of the depositions on which the warrant of removal was granted; and which they are bound by the 3d section of the Act 25 & 26 Vict. c. 76, to furnish on application.

No. 7.—REPORT from Mr. *Hamilton*, Poor Law Inspector to the Commissioners.

Gentlemen, Fiddown, 25 January 1866.

IN compliance with the instructions conveyed to me in your letter of the 18th instant, No. 1052/66, I have examined Elizabeth Finn, and I now beg to forward her statement, on oath.

I have no means of testing the accuracy of her statement. I have, however, as you will see, obtained such details as will facilitate any further inquiry into her case at Toxteth Park.

It seems to me that there are sufficient grounds to question her liability to removal to Ireland.

The circumstances attending her removal are fully detailed.

The Board of Guardians of Wexford Union have written for a copy of the depositions in her case.

I beg to return the documents which accompanied your letter.

I have, &c.

To the Poor Law Commissioners, &c. &c. &c. (signed) *W. J. Hamilton.*

I beg to state that Oulart is in the union of Enniscorthy.

(No. 1695/66.)

No. 8.—MINUTES of EVIDENCE enclosed in foregoing Report.

ELIZABETH FINN duly sworn, states:—I am a married woman, and the mother of five children. I am about 42 years of age. I was born at Monavullen, in the parish of Oulart, about five miles from Enniscorthy. I first left my home the summer of the year the Queen was crowned. I was only a child when I left Ireland. I went to Liverpool, was a servant there, then went to the Cheshire side of the river. I was married in the Roman Catholic chapel of Birkenhead about 22 years ago. My husband is an Englishman. He always told me he was born and brought up in Liverpool. I do not know in what precise place in Liverpool, or the name of the parish or township. My husband's name is Owen Finn. I cannot tell whether he was of Irish origin. He is a labourer. I do not know where he is now. He left me to go and look for work three days before I went into the workhouse at Smithdown-lane, Toxteth Park. My husband and I lived with our family in Henderson-street, Toxteth Park, for eight years; Iforget the number. We then removed into Bedford-street, Toxteth Park, No. 4, Bedford-street; we were 12 months there; then into Albert-street, No. 3, this was in Toxteth Park too; then to No, 6, John-street. Toxteth Park, three years there; then Stanhope-street, No. 5 court, in Toxteth Park too. We then removed to 25, Opwood-street, north end, not in the Toxteth Park District, it is about four miles from Toxteth Park. We removed according to the work; for the last four years we had lived at Wolf-street, Toxteth Park, No. 3 court; we never left it all those four years. We lived in the same house, it was in the Toxteth Park Union. I don't know the name of the parish or township. I only know our chapel was St. Patrick's Chapel, my husband was for 12 years in one employment, Mr. Miller's. He always supported his family and kept us out of the union; but work becoming scarce, he went to America some months ago to try and do better for us. He left us all at home (No. 3 Court) Wolf-street; on his arrival in America his health failed, and he came back again. He was away altogether five months; about six weeks before he came back I was forced to seek relief for myself and children (4), my eldest being at sea. The eldest of my children now with me is, 13, Margaret, Johnny, 11, Tommy, 8, and Mary, 4. We were allowed 5 *s.* a-week for six weeks. I then went before the Board and told them my husband had returned from America, and that he had again gone to look for work; they then said I had better come into the poorhouse, and I did so, and brought the children with me, leaving my furniture and things in a neighbour's house, Mrs. Caffrey's house, Market-court, Rathborne-street. I was five weeks in the poorhouse; about a fortnight after I had been there I was taken before a magistrate. I don't know his name. He told the passmaster I had been too long in the country, and he could not pass me. The passmaster said I was Irish; he said he dared say I was, and did not doubt it, but he could not pass me, especially as I had seen my husband so lately. All my children were born in England, and registered in England; three were born in Liverpool, and two in Cheshire. My eldest son is 21. I have been once in Ireland since I was married, about 13 years ago. I was only one week at my sister's, who lives near Oulart. My husband never was in Ireland to my knowledge, nor were any of my children until now. When I asked for my discharge from the workhouse to go and get tidings of my husband, the master of the workhouse said he had a warrant to pass me to Ireland, and I was sent off against my wish. I resisted, and three officers escorted me to the steamer, and a pair of handcuffs was sent to be used if necessary;

necessary; the children cried and begged me to go quietly, so that I might not be handcuffed; at a moment's notice I was sent off like a prisoner.

We embarked at Liverpool on the 10th January. We were deck passengers, but we got shelter in the hold with some sailors and others who were passengers. We had a fearful passage, and the children suffered a deal; it blew so hard that the vessel could not get into Wexford; but had to run for Ballyhock; we then came here a distance of 25 miles on an open car, and the children were quite benumbed with cold when they reached Wexford at 11½ o'clock on Thursday night: we were accompanied by a paid officer of Toxteth Park Union. I don't know his name. I last saw my husband three days before I went into the workhouse, and I was about five weeks there; to the best of my knowledge, my husband never received relief from any parish. I don't know where my husband is. He was always a good husband and a good father, and had I been let out of the workhouse I could have found him. He always went to his place of worship. I am sure he has returned before this, and it is no fault of mine that I am not there to meet him. I am sure my things are all safe. My sailor son is now on his way home from Calcutta. The master of Toxteth Park Union told me that if I wrote to him he would tell my son where I had gone on his arrival, as I said I feared when he found his home broken up he might go to the bad.

No. 9.—Letter from the Commissioners to the Board of Guardians.

Sir, Poor Law Commission Office, Dublin, 26 January 1866.

The Commissioners for administering the laws for relief of the poor in Ireland desire to acquaint the Board of Guardians of Wexford Union, that they have received Mr. Hamilton's report, with the deposition of Catherine Finn, taken by him on the 23d instant. in reference to her removal with her four children from the township of Toxteth Park; but before advising the guardians on the subject they wish to see the depositions on which the warrant of removal purports to have been granted, which the Commissioners believe the guardians have already applied for, as suggested by them.

By order, &c.
To the Clerk, Wexford Union. *B. Banks,* Chief Clerk.

(No. 1695/66.)

No. 10.—Letter from the Commissioners to the Board of Guardians.

Sir, Poor Law Commission Office, Dublin, 2 February 1866.

Referring to their letter of the 26th ultimo on the subject of the removal of Elizabeth Finn and her four children from the township of Toxteth Park to the workhouse of the Wexford Union, the Commissioners for administering the laws for relief of the poor in Ireland desire to state that as the question of the liability of Elizabeth Finn and her children to be removed to Ireland appeared open to considerable doubt, the Commissioners were desirous of seeing the depositions on which the warrant was granted, but as those depositions do not appear to have been yet furnished to the guardians, the Commissioners now forward a copy of the woman's statement on oath, as made to Mr. Hamilton, Poor Law Inspector.

From this statement it appears that, apart from the question of the liability of the woman and her children to removal, there were several irregularities and some hardship in the case.

In the first place, it appears, that if removable to Ireland at all the family ought to have been sent to the Enniscorthy Union, and not to the Wexford Union.

It would also appear from her statement that the only magistrate before whom she was taken stated that she was not removable, and declined to grant the order; and if this statement is true, it would appear that the warrant which was subsequently obtained, and under which she was removed, was not obtained in accordance with the provisions of the Poor Removal Acts.

The family were removed as deck passengers, contrary to the provisions of the 6th section of the 24 & 25 Vict. c. 76, by which the guilty parties have rendered themselves liable to a penalty of 5 *l.*

The forcible removal of the woman against her will (handcuffs being produced to her, though not actually used), without allowing her an opportunity of seeing after her furniture, appears to have been an act of harshness, though not any violation probably of the law as it exists.

The

The main question, however, appears to be whether the woman was removable at all to Ireland. If her husband, who appears to be an Englishman, has a settlement in England, and if that settlement is known, the family ought to have been removed to the place of his settlement. The depositions, however, do not contain sufficient information on this point, and it becomes a question for the Guardians' consideration whether they will incur the expense of a preliminary inquiry in England to ascertain what the facts really are, and the place of the husband's settlement, which can be done at a trifling expense.

The costs of an appeal against the removal, under the 7th section of the Act 26 & 27 Vict. c. 89, would be more serious; but in the event of the appeal being successful, the costs of both proceedings, as well as the costs of the paupers' maintenance, and their re-transmission to the union from which they have been removed, would be payable by the Board of Guardians of that union; and if the Guardians think an appeal desirable, and will pass a resolution in terms of the section above referred to (a copy of which is enclosed), agreeing to pay the costs, the Commissioners will at once take the necessary steps in the matter.

"The Clerk of the Union reported that the Guardians of Toxteth Park township had not yet sent a copy of the depositions upon which the warrant for the removal of Elizabeth Finn and her four children was granted, although he had written them for it on the 22nd ultimo.

"Resolved unanimously,—That this Board of Guardians are desirous of appealing against the removal of Elizabeth Finn and her four children from Toxteth Park township to this union, and hereby undertake, in the event of being unsuccessful, to pay the expenses consequent on the proceeding; and we therefore request that the Commissioners will take the necessary steps to proceed in the matter as early as possible.

Poor Law Commission Office, Dublin,
9 February 1866.

Gentlemen,

The Commissioners for administering the Laws for Relief of the Poor in Ireland request that you will be so good as to make a preliminary inquiry in accordance with the provisions of the Act 26 & 27 Vict. c. 89, s. 7, with a view to an appeal, if it should appear likely to be attended with success, against a warrant for the removal of Elizabeth Finn and her four children from Toxteth Park to Wexford Union.

The copy of the warrant received by the Enniscorthy Board of Guardians, together with a copy of the statement made by Elizabeth Finn, in reply to questions put to her on her arrival at the workhouse, and of her subsequent examination on oath by the Poor Law Inspector, are herewith enclosed, together with a copy of the Guardians' resolution, expressing their desire to appeal against the warrant.

It will be seen from these documents that there were, according to the woman's statement, various irregularities attending the obtaining and execution of the warrant, which it will be observed orders her removal to a union with which she had no previous connection, either by birth or residence, Oulart, her place of birth and last residence in Ireland, being in the Enniscorthy Union, and not in the Wexford Union. But independently of these circumstances, which would not, the Commissioners presume, constitute any ground for an appeal against the warrant under the section above referred to, it will be seen that Elizabeth Finn states that her husband is an Englishman, and was born in Liverpool; and the Commissioners presume, that if this is the fact, and if her husband's settlement is known, she and her children (who were all born in England) ought to have been removed, if removable at all, to the husband's place of settlement, and not to Ireland.

The Commissioners request that you will be so good as to return the copy of the warrant of removal, with your report of the result of your preliminary inquiry.

No. 19.—REPORT of Preliminary Inquiry, enclosed in foregoing.

REPORT of Messrs. Marsh & Barratt to the Commissioners for administering the Laws for Relief of the Poor in Ireland, on a Preliminary Inquiry under the Act 26 & 27 Vict. c. 89, s. 7, as to the removal of Elizabeth Finn and her four children from Toxteth Park, Lancashire, to Wexford Union.

THE undersigned beg to report that we have been for seven days engaged in making a diligent inquiry into the circumstances of this removal. Of the difficulties which have attended our inquiry some idea may be formed when we mention the fact that Mrs. Caffrey, the neighbour in Market-court mentioned in the pauper's deposition, had died a fortnight before our inquiry commenced; and of all the inhabitants of No. 3 Court, Woolf-street, such is the migratory nature of the population, that one only had resided there for a longer period than a week. We succeeded, however, in ascertaining that Owen Finn had returned and removed his furniture, and had been seen by a provision dealer named Doyle, to whom he owed a small shop bill, and to whom he would not give his address. Either from this circumstance, or from his distrusting for other reasons the object of our inquiry, we have no doubt he has during a whole week been purposely evading all attempts to find him. We succeeded, however, in tracing him to the works of the Great Northern Extension Railway at Liverpool, thence to a quarry at Everton, thence to Bootle; and eventually, from assistance afforded to us through the influence of the Rev. Canon Chapman, of St. Werburgh's Roman Catholic Chapel, Birkenhead, and the Rev. P. Power, of St. Anthony's Roman Catholic Chapel, Liverpool, we succeeded in finding Owen Finn living at No. 7 house, No. 28 Court, Hornby-street, Liverpool. His wife, Elizabeth Finn, and three of the four children removed, are living with him, having been sent back by her friends.

There is no ground for the suggestion that Owen Finn is an Englishman. He states that he was brought from Ireland when about nine years of age by his father and mother, but never heard from what part of Ireland he came. We have seen his sister, named Ragan, who is living in Stanley-court, Dryden-street, Scotland-road, and is a little older than Finn, and she can only give the same information.

Before seeing him, we had ascertained from Messrs. Williams & Jones, of 32 Castle-street, Liverpool, the house agents who have the management of the property in No. 3 Court, Woolf-street, that the date of Finn's entry into the tenancy of that house was the 16th March 1863; and as the pauper in her statement to the Poor Law Inspector had given her last previous residence at 25, Hopwood-street, North-end, we considered it unnecessary to make further inquiries on that head. On its being pointed out to Finn and his wife, that this did not give as long a residence in No. 3 Court as had been stated, he asserted that he had lived for a month previous in another house in the same court; and his wife wished to extend the statement to two months. We place no reliance on this assertion, and if true it is unimportant, as the period during which the pauper was receiving relief would have to be excluded from the computation of time necessary to make the paupers irremovable, and the wife and family seem to have been receiving either out-door or in-door relief from the beginning of November 1865. There is, therefore, no ground for alleging irremovability. If the time had been sufficient, a question would have arisen as to the effect of the husband's absence in America, which, on the facts as now ascertained, it is unnecessary to discuss.

We find that the pauper is, as alleged, the wife of Owen Finn, though she has not stated truly the date of the marriage, which, according to her deposition, should have been about the year 1843 or 1844. We searched in vain the register at St. Werburgh's during the years 1842 to 1851, except during a short period, during which the original register is defective; but fortunately the marriage register for the district of Wirrall preserves a copy, and we find that Owen Finn and Betsy Dempsey were married at St. Werburgh's on the 20th February 1850. Their eldest son, spoken of in the wife's deposition as being abroad, was born out of wedlock, at the workhouse in Birkenhead. We had obtained copies of the baptismal registers of the two next, namely, Margaret, born 8th April 1851, and John, born 9th September 1853, each being a year or two older than stated by their mother. We have not found any register of the two youngest; but, from the above facts, it is evident that they were born in England. We are told they were baptised at St. Anthony's Roman Catholic Chapel, but have not thought it necessary to procure copies of

of the register. It is clear, then, that the pauper and her children are neither settled in England nor irremovable from Toxteth-park; but there are several grounds on which the warrant of removal appears to us to be open to fatal objections, if it should be thought worth while to appeal against it under the circumstances of the pauper having left Ireland and returned to Liverpool, and having regard, moreover, to the difficulty there may be in again searching for the paupers, and procuring their evidence in the event of an appeal.

From the moment of the husband's return from America he was clearly resident in Toxteth-park, where his wife and family were living, and his subsequent absence in search of work was no interruption of his residence there, unless it was a desertion of his wife and children, which (having regard to Mr. Justice Erle's definition of desertion, R. *v.* All Saint's, Derby, 14 Q. B. 220) there can be no pretence for alleging; consequently relief given to his wife and children was relief given to Owen Finn as the head of the family, and no valid order could be made except on his appearance before the magistrates, or at least on the return of a summons served upon him (*see* remarks of Coleridge, J., in the case above quoted).

The removal ought to have been to the union where the husband, and not the wife, was born, or, if his place of birth or residence in Ireland could not be ascertained, then to the most convenient port, under the 24 & 25 Vict. c. 76, s. 2.

The warrant of removal is bad on the face of it, in not showing any ground of removal to Wexford Union. It departs from the form provided by 26 & 27 Vict. c. 89, in not alleging, Oulart, the place of birth, to be in Wexford Union; and it appears from the Board's instructions in this case that it is in fact in another union.

The pauper's evidence alleges another important irregularity in the making of the order. She alleges, in fact, that the order was refused when she was before the magistrates, and subsequently made behind her back; and her evidence in this respect is corroborated by the appearance of the document itself. She embarked from Liverpool on the 10th January, having been about five weeks in the workhouse, which would bring the date of her admission to about the 6th December.

She was taken before the magistrates when she had been about a fortnight in the workhouse, which would bring us to about the 20th, and the warrant appears to have been filled up ready for signature on the 18th (a very close approximation to the dates derived from her statement), and subsequently altered to the 6th January, the name of the pauper, as the person giving evidence, being at the same time altered to "a competent person." The form given by the Act does not require the names of the witnesses to be given, but it does require the name of the person making the application for the warrant, and its omission in this case may be worth noticing in the grounds of appeal, if an appeal be determined on in respect of the more serious irregularities.

No. 20.—Letter from the Commissioners to the Board of Guardians.

Sir, Poor Law Commission Office, Dublin, 2 March 1866.

Adverting to previous correspondence on the subject of the removal of Elizabeth Finn and her four children from the township of Toxteth Park, Liverpool, to the workhouse of the Wexford Union, the Commissioners for administering the Laws for Relief of the Poor in Ireland now transmit, herewith, for the information of the Board of Guardians, a copy of a report which they have received from Messrs. Marsh & Barratt, Solicitors, on the preliminary inquiries made by them into the circumstances of the removal in this case.

The Commissioners desire, at the same time, to state that, looking to the fact that the woman and her children have now returned to Liverpool, and have rejoined her husband there, it it seems scarcely worth the expense of proceeding with an appeal on the grounds suggested in the report, though the fullest reliance on Messrs. Marsh & Barratt's view of the case.

The Commissioners intend, however, to place the case before the Government, as an instance of the irregularities practised in England by Poor Law authorities in availing themselves of the present law of removal, and to point out the harshness of separating his wife and children from Owen Finn on the unsustained ground of his having deserted them.

Gentlemen, Poor Law Commission Office, 9 March 1866.

THE Commissioners for administering the Laws for Relief of the Poor in Ireland acknowledge with thanks the receipt of your report of the 26th ultimo, on the preliminary inquiries made by you into the circumstances of the removal of Elizabeth Finn and her four children from the township of Toxteth Park, Liverpool, to the workhouse of the Wexford Union.

The Commissioners desire to inform you that they have forwarded a copy of your report to the Board of Guardians of Wexford Union, and have stated that, looking to the fact that the woman and her children have now returned to Liverpool, and have rejoined her husband there, it seems scarcely worth the expense of proceeding with an appeal on the grounds suggested in the report, though the Commissioners place the fullest reliance on your view of the case; and the Board of Guardians, at their meeting on the 3d instant, passed a resolution to the effect that they will not proceed further in the matter.

The Commissioners request that you will be so good as to furnish them with your bill of costs in the case, with a view to its being placed before the Board of Guardians for payment.

No. 23.—LETTER from the Commissioners to the Under Secretary of the Lord Lieutenant.

Sir, Poor Law Commission Office, Dublin, 10 March 1866.

THE Commissioners for administering the Laws for Relief of the Poor in Ireland transmit to you herewith, for the information of his Excellency the Lord Lieutenant, a copy of correspondence relating to the removal of Elizabeth Finn and her four children, aged 13, 11, 8, and 4 years respectively, from the township of Toxteth Park, Liverpool, to the workhouse of Wexford Union.

The case is one in which, as the Commissioners are advised, there are good grounds for an appeal againt the warrant; but on consideration of the circumstances mentioned in the Report of Messrs. Marsh & Barratt, Solicitors, of Warrington, by whom a preliminary inquiry has been made in accordance with the provisions of the 7th Section of the Act 26 & 27 Vict. cap. 89, and of the fact that the family have returned to England, and are no longer chargeable to Wexford Union, the Commissioners have advised the Board of Guardians not to incur the expense of an appeal, but have at the same time stated to them, that they would bring the case under the notice of Her Majesty's Government in Ireland.

The Commissioners submit that the papers show the following state of facts, viz.: that there was no legal ground for the removal of the woman and her children without the husband; that, if removable, they ought to have been all removed to the place to which the husband would have been removable; and that, even according to the wife's place of birth and residence in Ireland, they ought not to have been removed to Wexford Union, she having been born, and always resided when in Ireland, at a place situated in Enniscorthy Union; and lastly, that the order was made in her absence, the woman not being before the magistrates when the warrant was granted, as required by the 1st Section of the Act 24 & 25 Vict. cap. 76.

It will be seen by the woman's deposition as taken by Mr. Hamilton, that about a fortnight after she entered the Toxteth Park Workhouse, she was taken before a magistrate, who refused to grant a warrant for her removal; and that about three weeks afterwards, on her applying for her discharge, in order that she might go and get tidings of her husband, the master told her he had a warrant to pass her to Ireland, and it was under this warrant that she was removed.

This statement is confirmed by the appearance of the warrant itself, which, as originally filled up, referred to the examination of Elizabeth Finn, and stated that the examination was annexed, and bore date the 18th December 1865. The words referring to the examination of Elizabeth Finn have, however, been altered by striking out the words "the said Elizabeth Finn," and inserting the words "a competent witness;" the words "which examination is hereto annexed" have also been struck out, and the date has been altered from the 18th December 1865, to the 6th January 1866; and it is a remarkable circumstance, that although the Guardians of Wexford Union applied on the 22nd January last for a copy of the depositions in the case, to which they are entitled by the 3rd Section of the Act, no reply has been received.

Assuming that the solicitors who conducted the preliminary inquiry in Liverpool are correct in their view, that no pretence existed for considering this woman to have been deserted by her husband, the removing authorities have without any colourable pretext separated by force a wife from her husband, and several young children from their father, sending them a long sea voyage on the deck of a steamer in stormy weather at this inclement season of the year. It was only at the entreaty of the children, who cried to her to go quietly and not have the handcuffs put on her, that the woman ceased to struggle against the illegal violence of those who were taking her from the place where her husband was

was residing, although temporarily absent from her in order to obtain work. The sufferings of the children during the voyage and afterwards are described in Elizabeth Finn's deposition before the inspector. She has, on all occasions when examined, declared Owen Finn to have been a good husband to her, and a good father to her children; and this part of her statement is confirmed by the fact of her having since obtained from her relatives in Ireland the means of returning to him at Liverpool, and by the further fact that, on the recent inquiry made in that town, they were found to be living together.

Such proceedings as these would demand attention, even if they were capable of being justified by a rigorous construction of the law of removal; but as the case is now presented to the Commissioners, it appears to them quite necessary that the removing authorities should have the opportunity of explaining their conduct, and with this view the Commissioners have submitted the case to his Excellency's consideration.

No. 26.—Letter from the Commissioners to the Board of Guardians.

Sir, Poor Law Commission Office, Dublin, 16 March 1866.

With reference to their letter of the 2nd instant, the Commissioners for administering the Laws for Relief of the Poor in Ireland transmit, to be laid before the Board of Guardians of Wexford Union, the accompanying bill, which they have received from Messrs. Marsh & Barratt, Solicitors, of the costs incurred in the preliminary inquiries made by them into the circumstances of the removal of Elizabeth Finn and her four children from the township of Toxteth Park, Liverpool, to the workhouse of Wexford Union, amounting to 21 *l.* 15 *s.* 10 *d.*, and the Commissioners request that the Board of Guardians will have the goodness to remit the amount to them for payment to Messrs. Marsh & Barratt.

The Commissioners desire to express their regret that the expense exceeds what they, from previous experience, expected it to be; which arose from the peculiarity of the case, and the great difficulty the solicitors appear to have encountered in discovering the parties.

The average expense of preliminary inquiries in previous cases, conducted by the same solicitors, has been less than 5 *l.*

The information obtained is of great interest and importance in reference to the existing state of the law of removal, and the case has been brought under the special consideration of Her Majesty's Government.

The pauper made the following statement:—That having applied for and obtained relief twice at the Westminster workhouse, her husband having left London at that time in search of employment, she was forcibly taken before a magistrate who interrogated her as to her previous place of residence; that she was then brought back to the workhouse, where she, with her two children, had been placed in a cab and sent off to the Saint Catherine's Dock, put on board the steamer bound for Cork; that she entreated of the officials at the workhouse to let her go to her husband, and "she would never trouble them again," and was told when he (the husband) would come to make inquiries about her he would be similarly dealt with; that, during the three days she had been coming to Cork, the removing officer (whose name she could not ascertain) took no pains whatever about herself or two children, as he always appeared to be under the influence of drink; that upon her arrival in Cork, she was again put into the train, and found herself next in Killarney, where the removing officer having paid her fare per train to Limerick, left her. She also submitted a letter, of which the following is a copy, received from her husband since her admission to this workhouse:—

My dear Wife, Drury-lane, 25 Charles-street, London.

I was greatly surprised when I received your letter to hear that you were in Ireland, which grieved me very much to hear that you and my dear children were so distressed; they had no right to send you and my children away from me; that the children were born in Westminster parish, and I lived there 20 years, and where else could they claim but that parish? I was greatly surprised that they pressed them away from me in that manner without letting me know; as those in Westminster parish had no feeling, I hope and trust the gentlemen of Limerick Union will kindly assist you and the children back to me again, as I have plenty of work to support them, for which I should feel very grateful.

Your affectionate Husband,
Patrick Barry.

No. 3.—Letter from the Commissioners to Mr. *Bourke*, Poor Law Inspector.

Poor Law Commission Office, Dublin,
19 February 1866.

Sir,

With reference to your observations, dated the 18th instant, relative to the removal of the pauper Mary Barry, and her two children, from Westminster, to the workhouse of the Limerick Union, the Commissioners for administering the Laws for Relief of the Poor in Ireland have directed that the papers on the subject be herewith sent back to you, and they will be obliged to you if you will be so good as to report any further information you may obtain thereon.

It may, perhaps, be desirable that you should take the woman's deposition, on oath, and examine her especially as to the circumstances under which her husband left London, and the duration of his absence.

No warrant having been received by the Guardians of Limerick Union, it should be ascertained whether the pauper has a copy, the Act of Parliament requiring it to be given to her.

By Order, &c.

No. 4.—REPORT from Mr. *Bourke* to the Commissioners.

Gentlemen, Lisnagry, Limerick, 12 March 1866.

WITH reference to your letter of the 19th ultimo, No. 1762, requesting me to report to you upon the case of Mary Barry, who, with her two infant children, was removed from one of the Metropolitan Unions on the 9th November last, under circumstances of great hardship, and in a manner apparently both cruel and illegal, I beg leave to state that upon personal inquiry made at the Limerick workhouse on the 21st ultimo, I found that the woman had taken her discharge on the 9th, and returned with her children to London, there to join her husband.

I had no means therefore of examining her upon oath, nor could I ascertain the position of the case, as the solicitor to whom the papers had been entrusted by the guardians, with a view to his prosecuting the offenders, was absent from Limerick, where he only returned last week for the assizes.

I now understand from Mr. Murphy, the solicitor, that the woman swore no information in the case, his opinion being that no proceedings could be successfully undertaken; and he confined himself to addressing the Poor Law Board on the subject, from whence he received a reply, dated the 23d February, stating that inquiries were in progress regarding the case.

Under these circumstances there is no other evidence than the woman's own statement as to her treatment by the parish officers of the removing union. But it is certain that she and her children were deserted on their journey, contrary to the provisions of the Act, and arrived at the Limerick workhouse unaccompanied by any removing officer. It is also certain that no warrant for her removal was received by the Limerick Guardians, nor, according to her statement, was any copy given to her.

She states that she resided 16 years in Westminster, and that although her husband had left London in search of employment, when she applied the second time for relief, she was not deserted. It seems probable, however, that there was sufficient break in the husband's residence to render the wife removable, as a letter received from him by his wife, whilst in the Limerick workhouse, is dated from Charles-street, Drury-lane. She states that she and her children were deck passengers from London to Cork, contrary to the provisions of the Act regulating the removal of the Irish poor, and that from Cork she was taken first to Killarney, and sent on from thence, unaccompanied by the removing officer, to Limerick, where she arrived on the 13th November.

The omission of the parish authorities to furnish the Limerick Board with a copy of the warrant of removal in this case deprived it of the immediate attention usually given in similar instances; and the woman has now left the workhouse without having furnished the means of determining the parish by which she was removed, and without giving all the details of her husband's absence from London.

It would appear, however, that she was living in York-street, Westminster, at the time of her removal, and it ought not to be difficult for the Poor Law Board to ascertain the facts relating to it, through the clerk of the union in which that street is situated.

I return the enclosures to your letter of the 19th ultimo.

I have, &c.

No. 5.—LETTER from the Commissioners to the Under Secretary of the Lord Lieutenant.

Poor Law Commission Office, Dublin,

Sir, 14 March 1866.

THE Commissioners for administering the Laws for Relief of the Poor in Ireland transmit to you herewith, for the information of His Excellency the Lord Lieutenant, a copy of a statement which they received on the 27th January last, relating to the removal of Mary Barry and her two infant children, from a parish in Westminster, together with a copy of a report which they have since received from Mr. Bourke, the inspector in charge of the union, on the subject.

It appears in the present case, as well as in the case of removal from Toxteth Park to the Wexford Union, reported in the Commissioners' letter of the 10th instant, that the woman and children had been illegally removed without the husband, the latter not having deserted them, as Mary Barry states, and her statement being confirmed by the letter she received from her husband while an inmate of Limerick Workhouse.

The Guardians of Limerick Union have placed this case in the hands of their own solicitor, and have not applied for a preliminary inquiry, with a view to an appeal, under the 7th section of the Act 26 and 27 Vict. cap. 89, probably on his advice; and therefore the question, whether she had been actually deserted or not has not been further inquired into by the Commissioners.

My Lord,

BY direction of the governors and directors of the poor of these parishes, I forward herewith the proceedings of the Board with reference to the case of Mary Barry in reply to the communication of the Poor Law Board, dated the 13th ultimo, No. 5542 C.—1866.

St. Margaret and St. John, Westminster,
15 February 1866.

At a Board of Governors and Directors of the Poor of these Parishes held this day;

PRESENT:—S. H. Godson, Esq. (Chairman), in the Chair;

Read the following Letter and its Enclosure.

[Here the same is inserted, No. 5,542 C.—1866, 13 February 1866; *re* Mary Barry and Children.]

THE Board made inquiries of the relieving officer in reference to the removal of the case referred to in the letter now read, and it appeared that this woman and her children were admitted into the Petty France House in the name of Mary Welch on the 5th May 1865, and she took her discharge on the 10th June to avoid removal; she was admitted again on the 25th September, and steps were taken to pass her to Ireland, but she again discharged herself on the 30th September to avoid removal to Ireland; she was again admitted on the 31st October; she remained in the house until the 7th November, and she was removed to Ireland at her own request.

The relieving officer stated that option is given in every Irish case either to leave the workhouse or go to Ireland; that Mary Welch stated on oath she was born at Patrick's Well, Limerick; that she left there nine years ago, and that her husband had deserted her 13 weeks; she had not heard from him since, nor did she know where he is; that a copy of the order for her removal to Ireland was given to her, and another copy was posted to the Guardians of the Poor of the Limerick Union on the same day, viz., 7th November 1865.

The clerk informed the Board that he forwarded to Mr. Frost, of 46, High-street, Wapping, the agent for the removal of Irish paupers, a copy of that part of the letter sent to the Poor Law Board by the Guardians of the Limerick Union, as relates to the removal of Mary Barry, or Welch, with a request that he will oblige the Board with a full report of the circumstances attending the removal to Limerick, but he had not received any reply at present.

The Board directed the clerk to acknowledge the receipt of the Poor Law Board's communication in reference to the case of Mary Barry, now read, and inform them that the same was under investigation.

1 March 1866.

The clerk reported that he had seen Mr. Frost, and he made the following statement in reference to the case of Mary Barry, or Welch, referred to in the Poor Law Board's communication on the 15th ultimo.

Re Mary Welch, or Barry, 27th February 1866.

Mr. Frost stated: I always see the warrant given to the pauper by the officer who brings them to me, and in most cases the paupers ask me to keep the warrant until they embark. I have always received a good character of Peter Reynolds for steadiness and sobriety; I employed him to remove Welch and family to Limerick; the order was given to the pauper.

Peter

Peter Reynolds, conductor to Mr. Frost, the agent for executing Irish orders of removal, states:—I cannot remember the pauper named Welch, or Barry; I removed her to Limerick, no doubt on the day named, with three other families, under the orders of Mr. Frost. I had no occasion to go to Killarney between the 12th and 28th November, and did not go, I am certain. Very often when warrants are given to the paupers they have torn them up on the voyage. I never handed her over to another person to take her to Limerick, because I always do the work myself of taking the poor to their destination. I keep no account of my journies to and from Ireland.

The clerk was directed to forward the result of the Board's enquiries into the case of Mary Barry, or Welch, on the 15th ultimo, and the statements made by Mr. Frost and his agent, now read, to the Poor Law Board.

Sir,

I AM directed by the Poor Law Board to acknowledge the receipt of your letter of the 5th instant, forwarding extracts from the minutes of the Governors and Directors of the Poor of the Parishes of St. Margaret and St. John, Westminster, in explanation of the proceedings connected with the removal from those parishes to Ireland of the pauper named Mary Barry.

I am directed to inquire what steps the governors and directors took to ascertain whether the pauper's husband had or had not deserted her as alleged, and whether they were supplied with any other information as to the case than that which appears in the extracts from the minutes.

The Board wish to be furnished with a copy of the directions given by the governors and directors in pursuance of which the order of justices was obtained for the removal of the pauper to Ireland.

They also wish for an explanation of the statement of the relieving officer, that "option is given in every Irish case either to leave the workhouse or go to Ireland." They desire to be informed whether this option is given by the relieving officer himself, or by the master of the workhouse, or by the governors and directors. If given by the relieving officer or the master of the workhouse, the Board wish to learn whether this is by direction of the governors and directors.

The Board request to be furnished with a prompt answer to these inquiries.

My Lord,

I AM directed by the Board of Governors and Directors of the poor of these parishes to acknowledge the receipt of your Lordship's letter, dated the 23d instant, No. 9735 C., and to state in reply to inquiry respecting the case of Mary Barry, as to what steps the governors and directors took to ascertain whether the pauper's husband had or had not deserted her, that it was upon the statement of the pauper herself, that her husband had deserted her in April last, in Rye-street; that she had not heard from him since that time, neither could she give any information about him, that the order of the Board was written by the Chairman in the Relief List, when she appeared before the Board in September last, for her to be "passed to Ireland," which order she was informed of by the chairman.

With regard to the statement of the relieving officer, that option is given in every Irish case either to leave or go to Ireland, I am to explain that it is the practice of the Board, when paupers are reported as belonging to Ireland, and removable thereto, never to send them if they object to be passed, and that the relieving officer and the master are empowered by the governors to stay the execution of a justice's order whenever objections are raised by the poor; but, in the case of Barry, it appears she was in favour of being sent to Ireland, and was sent accordingly.

No. 9.—LETTER from the Commissioners to the Board of Guardians.

Poor Law Commission Office, Dublin,
17 April 1866.

Sir,

THE Commissioners for administering the Laws for Relief of the Poor in Ireland acknowledge the receipt of your letter of the 13th instant, forwarding correspondence relative to the case of Mary Barry, removed from Westminster with her children, in the month of November last.

The Commissioners think it would have been better if the Board of Guardians had applied to the Commissioners for a preliminary inquiry under the 7th section of the Act for the further amendment of the Law relating to the Removal of Irish Poor from England (26 and 27 Vict. c. 89). It would then have been ascertained, with certainty, how far the present statements are correct, and more especially whether any desertion of this woman by her husband actually took place, as seems very unlikely from the terms of the letter which he addressed to her while in Limerick workhouse.

Had it appeared that there was no such desertion as alleged, an appeal might have been successfully maintained against the order, as in that case the woman and her children were not removable to Ireland without the husband.

As, however, they have now ceased to be chargeable, and the time for the hearing of the appeal is limited to six months from the time of removal, it would not now appear to be desirable to proceed under the section above mentioned.

The Commissioners for Administering the Laws for the Relief of the Poor in Ireland, have had before them Minutes of Proceedings of the Board of Guardians of Loughrea Union on the 26th ultimo, from which it appears that a warrant for the removal of a woman named Catherine Nevin and her children from the Union of Saint George, Hanover-square, London, to the workhouse of the Loughrea Union, has been received by the Guardians, but that the parties have not arrived; and that a communication has been received from Mr. Frost on the subject, inquiring as to the delivery of the woman and her children at the workhouse; and in reference thereto the Commissioners request that they may be informed of the further information which may be received by the Guardians in this case.

No. 8.—Extract from Minutes of Proceedings of the Board of Guardians of Loughrea Union, dated 2 September 1865.

"Read letter from the Poor Law Commissioners, No. 15,930, dated 1st September 1865, requesting to know whether any information has been received of the woman Catherine Nevin and her children, who have been deported from the Union of Saint George, Hanover-square, London, as referred to in Minutes of the 26th ultimo.

"Ordered,—That the Commissioners be informed, in reply to their lètter, that the parties in question have not as yet arrived at the workhouse, nor has any account been received of them since last meeting."

(No. 15,957/65.)

No. 9.—Observations of Mr. *Robinson*, Poor Law Inspector, in charge of the Dublin District.

"I find that a party came to Dublin in the 'Duke of Cornwall' steamer, which left London on the 5th ultimo and arrived on the 9th, tickets being taken for all in the name of Frost, and the tickets being one return and two single tickets; this probably was the party, the two single tickets being sufficient for Catherine Nevin and her three children.

"From information obtained from John Kelly, one of Mr. Frost's agents in Dublin, it would appear that George Leyton was the name of the conductor who came with Catherine Nevin.

"I find also that a man, who came from London in charge of paupers, went before Mr. Stronge, Chief Magistrate at the police court, early last month, and stated that a woman he was removing wished or was willing to remain in Dublin, and he asked whether he might leave her. Mr. Stronge refused to give him any such authority, and stated to him that if he left the woman he would render himself liable to a prosecution. Mr. Stronge says that, to the best of his recollection, Mr. Tyrwhitt was the magistrate who signed the removal order, and that Loughrea was the place to which the pauper was ordered to be removed.

"John Kelly had a letter from Mr. Frost, saying he had not heard of the party since the 10th ultimo; he expressed some anxiety about them, and stated that his conductor had been before the mayor, meaning probably the chief magistrate.

"It appears, from Mr. Frost's letter to the master of Loughrea workhouse, that he heard from his conductor from Dublin on the 9th ultimo, and I have very little doubt that the party arriving on that day by the 'Duke of Cornwall,' consisted of Catherine Nevin and her children, and that the person sent with them was the man who went before Mr. Stronge.

"I have not been able to trace them further."

No. 12.—Letter from the Commissioners to the Clerks of the several Unions in the Counties of Dublin, Kildare, and Wicklow.

Poor Law Commission Office,
Sir, Dublin, 14 September 1865.

The Commissioners for Administering the Laws for Relief of the Poor in Ireland, desire to state that it appears from a reportof the Clerk of the Loughrea Union, contained in the Minutes of Proceedings of the Board of Guardians, of the 26th ultimo, that a warrant had been received by him on the 4th ultimo for the removal of "Catherine Nevin" and her three children from the parish of St. George, Hanover-square, London, to that Union, but that the parties had not arrived at the workhouse.

The clerk at the same time reported that he had received a letter from "Mr. John Frost," removing agent, London, dated the 24th ultimo, stating that he had sent the party by his "conductor," and inquiring as to their delivery at the workhouse.

From information which the Commissioners have received, it seems probable that the party arrived in Dublin by steamer on the 9th ultimo, in charge of a man named "George Legion;" but as they had not been delivered at Loughrea Workhouse on the 9th instant, and nothing further had been heard of them by the Guardians of that Union up to that date, the Commissioners request that you will be so good as to inform them whether the woman in question and her three children have become chargeable in the workhouse of Union.

The age of Catherine Nevin is stated in the warrant of removal to be 33 years, and her children, John, Mary, and Eliza, are described as of the ages of ten years, and eight years, aud 18 months respectively.

He showed a warrant of removal from St. George's-in-the-East, London, for Loughrea Union; he wanted to deliver them at this workhouse, but Mr. Hammond, relieving officer, refused to take them; he then offered to give money to the woman to take herself and her children to Loughrea, if Mr. Hammond would sign the warrant, which Mr. Hammond also refused to do. They then went away.

No. 18.—LETTER from the Commissioners to the Chief Secretary of the Lord Lieutenant.

Poor Law Commission Office,
Dublin, 4 October 1865.

Sir,

ADVERTING to the previous correspondence on the subject of removals to Ireland from the metropolitan unions and parishes in England, the Commissioners for Administering the Laws for Relief of the Poor in Ireland, have the honour to state for the information of his Excellency, the Lord Lieutenant, that it appears from a report of the clerk of the Loughrea Union, contained in the Minutes of Proceeding of the Board of Guardians of the 26th August last, that a warrant was received by him on the fourth of that month for the removal of "Catherine Nevin" and her three children from the Parish of St. George, Hanover-square, London, to Loughrea Union, but that the parties had not, at the date of his report, arrived at the workhouse.

The clerk at the same time reported that he had received a letter from "Mr. John Frost,' Removing Agent, London, dated the 24th August, stating that he had sent the party by his "conductor," and inquiring as to their delivery at the workhouse.

See No. 6. Copies of these documents are enclosed herewith.*

From information which the Commissioners received from their inspector, Mr. Robinson, it seemed probable that Catherine Nevin and her children arrived in Dublin by steamer, on the 9th August; but as they had not been delivered at the Loughrea workhouse on the 9th September, and nothing further had been heard of them by the guardians of that union, the Commissioners addressed a letter to the clerks of the unions in the counties of Dublin, Wicklow, and Kildare, inquiring whether the woman and her children had become chargeable in any of the workhouses of those unions, but it was found that this was not the case.

It further appeared by a communication received from the Clerk of the North Dublin *See* Nos. 12 & 13. Union (a copy of which is enclosed*), that the parties were brought on the 9th August to Dublin by a man named William Smith, who, producing a warrant for their removal to Loughrea workouse, endeavoured at the same time to procure their admission into the workhouse of the North Dublin Union, that the relieving officer refused to receive them, whereupon

upon W. Smith offered to give money to the woman to take herself and her children to Loughrea, if the relieving officer would sign the warrant, which the latter declined to do, and that the parties then went away.

By a letter received yesterday from the Clerk of Loughrea Union, it appears that this woman and her children had, after abandonment in Dublin by the servant of Mr. Frost, found their way to the Union of Ecclesall-Bierlow, near Sheffield, in Yorkshire, and had there become chargeable, whereupon the guardians of that union removed her in a legal and proper manner, by the agency of one of their own officers, to Loughrea Union, in which she was born.

The present case is reported as showing that the hardship frequently inflicted on unions in Ireland, by the improper conduct of removals through the irresponsible agency of Mr. Frost, is not limited to Irish unions, but falls occasionally on English unions, as in the case of Ecclesall-Bierlow Union, which has been put to considerable expense in removing to Loughrea, in Ireland, a family which ought to have been delivered at Loughrea Union in the first instance by her conductor, instead of being abandoned by him in Dublin, and probably furnished by him with money, which enabled her to pass to, and become chargeable in a union which ought not to have been burdened with her support and subsequent removal back to Ireland.

Sir,

THE Commissioners for Administering the Laws for Relief of the Poor in Ireland transmit to you the accompanying warrant for the removal of "Catherine Navan," and her three children, from the Union of Ecclesall-Bierlow to the Loughrea Union, which, together with the replies to the usual queries (also herewith enclosed), has been forwarded to the Commissioners by the clerk of the Loughrea Union; and the Commissioners request that you will have the goodness, if the opportunity should occur, to question this woman on oath as to her being the same person to whom the two former warrants alluded to relate, and as to the particulars of her abandonment by Mr. Frost's servant, William Smith, and her subsequently falling chargeable in the Union of Ecclesall-Bierlow.

The other papers relating to the case are referred to you in ordinary course.

No. 20.—REPORT from Mr. *Bourke* to the Commissioners.

Gentlemen,
Loughrea, 14 October 1865.

IN pursuance of the directions in your letter of the 6th instant, I have examined Catherine Nevin, and obtained particulars on oath of her several removals from England, and her abandonment in Dublin by Mr. Frost's conductor, and I annex the depositions and return the papers which accompanied your letter.

Catherine Nevin seems an industrious woman, strongly attached to her children, whom she is bringing up as well as her means admit. The eldest boy, though only 11 years of age, has been offered employment in Sheffield as an assistant in a school at 3 *s.* 6 *d.* a week. She does not appear to have been often, or for any long period in receipt of parish relief during the 17 years she has resided in England, and is anxious to provide for her own support and that of her children, which she could do wherever she could find employment at her business as a laundress. The father of her children is a discharged soldier, and went to America about two or three years ago. She expects to hear from him and to join him there, and is anxious to maintain her connection with his friends in Sheffield, lest his communications should not reach her.

I have, &c.

No. 21.—DEPOSITION of *Catherine Nevin* (enclosed in foregoing Report.)

Catherine Nevin, sworn.—I am a native of Craughwell, in the Union of Loughrea, and left it with my brother and sister about 17 years since, to go to England. We went to Sheffield where we found work. It was there that I became acquainted with John Ashton, by whom I have three children. He is now in America. When first he left me, I followed him to London, and having met with him there we returned to Sheffield. But he having again deserted me, I went up after him to London, and not being able to find him, I became destitute and applied for relief to the relieving officer, and was admitted to the Strand Union Workhouse. I took my discharge, and obtained from the parish a sum of 10 *s.* to help me back to Sheffield, but I remained in London; and having again to seek relief, I was passed over to Ireland in October of last year (1864). I was sent in charge of an officer (whose name I cannot recollect) from London to Liverpool, and so to Dublin. I was not sent to Mr. Frost's on this occasion; I was taken by Mr. Gough (removing officer, as I believe, of the Strand Union) to the magistrate, and when the warrant was made out, Mr. Gough gave me in charge to the man who accompanied me over. Upon my arrival in Dublin with my three children, the officer placed us in a lodging, and gave me a sum of 2 *l.* to defray our expenses to Loughrea Union. We remained about a week in Dublin, and I then returned with my children to Sheffield. I remained there during the winter, and received relief for some time in the Ecclesall-Bierlow Union House, and in the spring went again to London where the mother of Ashton, by whom I had these three children, was living. But she had left it, and after some time I had to apply for relief to the parish officers, and having been admitted for about a fortnight to the workhouse of St. George's, Hanover-square, I was brought before the police magistrate and passed to Ireland. I was taken with my children in the first instance to Mr. Frost's house, where we remained for two days waiting for the boat, and at the expiration of that time, I was given in charge of a man, like a boatsman, who brought me to the steamer and accompanied us to Dublin. I do not know the man's name, but I heard him called George. We were provided by Mr. Frost with some tea and sugar, and plenty of bread and cheese. Having suffered much from sickness on the voyage, I wished to stop in Dublin and make a cup of tea from what I had with me before going to the railway on our way to Loughrea, but the officer refused to wait, and took us in a cab to the Broadstone Terminus. When we reached it, I refused to go before I had some tea, being very weak and ill from the effects of the voyage. But though there was time enough to have made the tea before the train started, the officer would not allow it, but brought us along on foot through the town to the Police Court, and applied to the magistrate to sign the paper, saying he would give us money to proceed to Loughrea. The magistrate refused to do this, and the officer then took us to a house kept by a woman named Clayton, near the Drogheda Railway Station, and inquired the price of lodgings. The woman stated it would be 1 *s.* 6 *d.* a night for us, and 1 *s.* for him. He paid her 1 *s.* 6 *d.* on our account and left us, and I have never seen him since. He left us no money, but said he would be back again next morning to take us to Loughrea, but he never came. On our way from the Police Court to Mrs. Clayton's, the officer took us to the city workhouse, where he wanted the relieving officer to sign the paper, but he would not do so.

I stopped a week at Mrs. Clayton's, and got work in washing, and one thing or other, until I earned money enough to take us all back to Liverpool, were we stopped a little, and I earned what took us to Manchester, and so on to Sheffield. After supporting myself and children there for a few weeks, I got ill and applied for relief, and was admitted to the workhouse, where I was kept for about three weeks, and then passed on to Loughrea in charge of Jonathan Daden, an officer of the Union. I came by Liverpool and Dublin, and so on here. I was without shoes, and the children also, and they had very bad clothing, and no linen.

Catherine Nevin.

No. 22.—LETTER from the Commissioners to the Under Secretary of the Lord Lieutenant.

Poor Law Commission Office, Dublin,
18 October 1865.

Sir,

ADVERTING to their letter of the 4th instant, the Commissioners for Administering the Laws for Relief of the Poor in Ireland, have the honour to forward herewith, for the information of his Excellency the Lord Lieutenant, a copy of a report from their inspector, Mr. Bourke, transmitting the depositions of the woman "Catherine Nevin," who, with her three children, was recently removed from the Ecclesall-Bierlow Union to Loughrea.

It appears from the depositions that Catherine Nevin has, with her children, been three times removed from England to Ireland within 12 months, having been left in Dublin by the persons employed to convey her to Loughrea Union on two of these occasions, instead of being taken to Loughrea by them, and delivered at the workhouse there.

On the first of these two occasions, she was left in Dublin with funds to enable her to proceed to Loughrea, but which she used to effect her return to England; while on the last

ast of these occasions, she was abandoned without any funds to assist her by the removing officer.

There seems to be reason to suppose also, that the person by whom she was last abandoned was the "George Legon," employed by Mr. Frost, whose misconduct has been reported in reference to other cases, of the particulars of which the Commissioners have found it necessary to communicate for his Excellency's information.

No. 23.—Letter from the Commissioners to Messrs. *Geale* and *Dwyer*, Solicitors.

Poor Law Commission Office, Dublin,
30 October 1865.

Gentlemen,

The Commissioners for Administering the Laws for Relief of the Poor in Ireland, transmit to you herewith, a file of papers relating to the removal of Catherine Nevin and her three children from England, from which you will perceive that Catherine Nevin has been removed from England under warrant on three several occasions, and that on two of those occasions she was deserted by the removing officer in Dublin, instead of being taken to Loughrea workhouse, as directed by the order of removal. On the first occasion (in October 1864) the removal appears to have been entrusted to an officer of the Strand Union, the guardians of that union having applied for and obtained the warrant, and the officer appears to have conveyed her to Dublin and left her there, having, however, furnished her with ample means to proceed to Longhrea, which however, she did not do, but returned to London; on the second occasion the warrant was obtained by the governors and directors of the parish of St. George's, Hanover-square, in the month of August last, and entrusted to Mr. John Frost of Wapping for execution, by whom it was in turn entrusted to a "conductor" employed by him in such cases; and from the information obtained by Mr. Robinson, Poor Law Inspector, there appears no reason to doubt that this person was "George Lugan" against whom you instituted proceedings under the Irish Poor Removal Acts in September 1864, for deserting a pauper under removal in the City of Cork. Legon appears to have brought the woman and her children to a lodging house in Dublin, and there deserted them, without making any provision whatever for their journey to Loughrea, or for their support in Dublin; and the woman having again made her way back to England became chargeable in the Ecclesall-Bierlow Union, and was removed under a warrant obtained by the guardians of that union and duly conveyed to Loughrea.

The Commissioners think that the circumstances of the desertion of Catherine Nevin by George Legon are such as to render it desirable that proceedings should be taken against him under the 4th section of the Act 26 & 27 Vict. c. 89, for the desertion of the woman and her children, and the Commissioners request that you will be so good as to institute proceedings accordingly in such manner as you may deem most advisable.

Sir,

Adverting to the Commissioner's letter of the 18th instant relative to the case of Catherine Nevin and her three children who have recently been removed from Ecclesall-Bierlow Union to Loughrea, the Commissioners for Administering the Laws for Relief of the Poor in Ireland desire to acquaint you, for the information of his Excellency the Lord Lieutenant, that considering all the circumstances of the case, it appearing that on two previous occasions the parties had been removed from metropolitan unions, and on both occasions deserted in Dublin by the parties entrusted with the execution of the warrant, they have thought it right to place the matter in the hands of their solicitors, Messrs. Geale and Dwyer, with a view to a prosecution under the 4th section of the Act 26 & 27 Vict. c. 89, against Mr. Frost's conductor, by whom the parties were deserted in August last.

No 25.—Letter from Messrs. *Geale* and *Dwyer* to the Commissioners.

Sir, Offices, 18 Talbot-street, 18 November 1865.

Referring to your letter as above instructing us to institute proceedings under the 26 & 27 Vict. c. 89, s. 4, against George Legon, who is the person supposed to have been entrusted with the execution of a warrant obtained by the Governors of the Union of St. George, Hanover-square, London, for delivery at the above union of Mary Nevin and her children, but who would seem to have deserted them in Dublin, without even giving them the means of proceeding to Loughrea:

We beg to say that we have given the matter full consideration, and find it to be a case of flagrant breach of the fourth esction of the Act above mentioned, and one that should be prosecuted, if the evidence necessary to sustain it can be procured.

There are two modes of proceeding:—The first, to have proper informations taken here, and a warrant issued for the apprehension of the accused, under which (it being properly backed) he could be arrested in London and brought over to be dealt with here.

The other course would be to have the pauper sent to London, where the informations could be made, and the accused brought to justice.

But to sustain such proceedings in either place George Legon must be clearly identified as the person who deserted Catherine Nevin: this she cannot do, as she says in her deposition, "I do not know the man's name, but I have heard him called George;" therefore, unless this deficiency in the evidence can be supplied by John Kelly (referred to in Mr. Robinson's report) as one of Mr. Frost's agents in Dublin, or some other person, the proceeding cannot be successfully sustained here; furthermore, in proceeding here, it would be necessary to give some legal proof of the warrant, under which the pauper was removed, and this presents a difficulty, which in the Cork case, was only got over by giving in evidence, a statement made by George Legon before the magistrate, in which he admitted having had the warrant.

Under these circumstances (unless a person to prove the warrant could be induced to come from the London Police Court), we are disposed to think that the proceedings can be best taken in London (where we assume George Legon is to be had), as the evidence of issuing of the warrant could be there procured, and some opportunity afforded to Catherine Nevin, who should be sent over for this purpose, of identifying the man in question, as the conductor who deserted her and her children.

We have written to Mr. Robinson, Poor Law Inspector, to know the address in Dublin of John Kelly, and shall await the further instructions of the Commissioners in the matter.

We are &c.

Gentlemen,

The Commissioners for Administering the Laws for Relief of the Poor in Ireland, acknowledge the receipt of your letter of the 18th instant, on the subject of the proceedings which they are desirous should be instituted against George Legon, the person supposed to have been entrusted with the execution of a warrant for the removal of a woman named Catherine Nevin, with her children from the Parish of St. George's, Hanover-square, to Loughrea Union.

In reply, the Commissioners have to state that they think it desirable on many grounds that the man who deserted Catherine Nevin and her children should be brought over to this country by warrant, if that course is found to be practicable.

Mr. Robinson informs the Commissioners that he has supplied the address of John Kelly, who may be able to identify George Legon as the person to whom the warrant of emoval was ontrusted.

23 November 1865.

Sir,

Adverting to the Minutes of Proceedings of the Board of Guardians of Loughrea Union, on the 26th August and 30th September last, respecting the case of "Catherine Nevin" and her children, for whose removal, from the parish of St. George's, Hanover-square, to Loughrea Union, a warrant was issued, the Commissioners for administering the laws for relief of the poor in Ireland request that you will have the goodness to inform them whether the woman, with her children, is still at Loughrea, either in the Workhouse, or town, or in the neighbourhood.

The Commissioners would be glad to receive information on this point without delay.

By order, &c.

No. 28.—Letter from the Clerk of Loughrea Union to the Commissioners.

Gentlemen, Board Room, 24 November 1865.

I beg leave to acknowledge the receipt of your letter of the 23d instant, (No. 20,957/65,) requesting information of the woman Catherine Nevin, who, with her three children, was removed, under warrant, from the Union of Ecclesall Bierlaw, on the 30th September last.

In reply, I have the honour to inform you that this woman and her children were admitted to this Union Workhouse, on the 21st ultimo, where they remained until Sunday the 5th November instant, on which day she claimed her discharge, and, accompanied by the three children, left for the purpose of returning back to England. I have been informed that, on the day in question, those parties travelled by car from Loughrea to the railway station at Athenry, where they remained until the following morning, when they left by the "Excursion Train" for Dublin. I may add, that Catherine Nevin stated, before leaving the workhouse, her intention was to return to Ecclesall Bierlaw, but not to apply for relief there until she would have acquired a settlement in the Union.

I have, &c.

Gentlemen,

Referring to your letter of the 30th October last, relative to the removal of Catherine Nevin and her three children, from the Ecclesall Bierlow Union to Loughrea, I am directed by the Lord Lieutenant to state that a letter has been received from the Secretary of State for the Home Department, desiring to learn the result of the instructions issued by you to your solicitors for the prosecution of Mr. Frost's conductor, by whom the above named paupers were deserted.

I am, therefore, to request that you will be so good as to furnish the information required.

4 December 1865.

Gentlemen,

With reference to their letter of the 23d ultimo, and to previous correspondence relating to the case of Catherine Nevin and her three children, who were removed from the parish of St. George, Hanover-square, London, and deserted in Dublin by the person entrusted with the execution of the warrant, the Commissioners for administering the laws for relief of the poor

poor in Ireland request that you will be so good as to inform them what progress has been made in reference to the proposed prosecution.

The Commissioners understand that the woman left Loughrea Workhouse with her three children on the 5th ultimo, and is now supposed to be at Ecclesall Bierlow, from whence she was last removed, but the Commissioners presume that this circumstance will not oppose any serious obstruction to the proceeding, and they trust that no unnecessary delay will take place, the intention to prosecute in this case having some time since been communicated to Her Majesty's Government.

4 December 1865.

Sir,

The Commissioners for administering the laws for relief of the poor in Ireland acknowledge the receipt of your letter of the 1st instant, requesting, by direction of his Excellency the Lord Lieutenant, to be furnished with information as to the result of the instructions given by the Commissioners to their solicitors to prosecute Mr. Frost's conductor for the desertion of Catherine Nevin and her children in Dublin, the warrant, with the execution of which he was entrusted, requiring that they should be left at Loughrea.

In reply, the Commissioners desire to state, that having on the 17th ultimo called Messrs. Geale & Dwyer's attention to the subject of the instructions given to them on the 30th October last, they received a letter from them in reply, setting forth the difficulties which they considered to exist in the way of obtaining a conviction; a copy of this letter, together with a copy of the Commissioners' reply, is enclosed, from which it will be seen that the Commissioners have instructed Messrs. Geale & Dwyer to proceed, notwithstanding these difficulties, to obtain a warrant under which Mr. Frost's conductor may be brought over to this country, to be dealt with by the proper tribunal in Ireland.

The Commissioners desire to add that they have learned from the clerk of Loughrea Union that the woman and her children left the union on the 5th ultimo, with the intention of returning to England, but Messrs. Geale & Dwyer have been again requested to proceed in the prosecution, notwithstanding this circumstance.

Sir,

In reply to your letter of the 4th instant, inquiring what progress had been made in reference to the prosecution for desertion of Catherine Nevin and her three children by the conductor entrusted with the execution of the warrant for their removal from London to Loughrea in the month of August last, we beg to say that some little delay has, of necessity, taken place, until we could ascertain where the woman Catherine Nevin is to be found, as her evidence is necessary to sustain the prosecution. After she had been deserted in Dublin in August last, she returned almost immediately to Sheffield, from whence she was removed again to Loughrea in September, where she continued till early in November last, having then left, intimating her intention to get back to Sheffield. Under these circumstances, we are making all requisite inquiries, and are in communication with an English correspondent on the subject. Should she be found (as there is no doubt she will) we shall report further on the subject.

Sir,

Referring to previous correspondence in this matter, we beg to state, for the information of the Commissioners for administering the laws for relief of the poor in Ireland, that our correspondent at Sheffield informs us by letter received this morning, that the woman Catherine Nevin and her three children are at present inmates of the Sheffield workhouse. This being so, we consider that it would, under all the circumstances, be more advisable that the proceedings should be taken in London, as we cannot obtain sufficient evidence here to identify George Legon as the person who deserted the pauper, or to prove the warrant of removal.

The Commissioners for administering the Laws for Relief of the Poor in Ireland acknowledge the receipt of your letter of the 15th instant relating to the case of "Catherine Nevin" and her three children, who, it appears, are now inmates of the workhouse of the Sheffield Union, and recommending that the prosecution in the case should be made in London; and the Commissioners request that you will proceed in the matter as proposed in your letter.

No. 36.—Letter from Messrs. *Geale & Dwyer* to the Commissioners.

Sir, Offices, 18, Talbot-street, 17 January 1866.

Referring to the instructions received from the Commissioners for administering the Laws for Relief of the Poor in Ireland to institute proceedings against George Legon for the desertion of Catherine Nevin and her children who had been entrusted to his care for delivery, under an English removal warrant, at the workhouse of this union, we beg to state, for the information of the Commissioners, that, on the 11th instant, we caused an application to be made to Mr. Knox, one of the London Metropolitan Magistrates, at the Marlborough-street Police Court, for to grant a warrant for the arrest of George Legon with a view to his committal, which was then granted. The magistrate, however, subsequently suspended the issuing of the warrant, and desired that the matter should be discussed before him. This was accordingly done on the 13th instant, but the magistrate

was of opinion that, as the offence charged took place in Ireland, he had not jurisdiction under the Statutes to grant the warrant desired.

We beg to enclose a report of the proceedings taken from the London "Times" of the 15th instant, which, although slightly inaccurate in some particulars, gives a fair but concise account of what took place.

This decision in no way affects the right to proceed in Ireland, and has had one good result, inasmuch as the magistrate, seeing the difficulty in the way of a prosecution in this country, stated his readiness, at any time, to send over an officer from his court to prove the original warrant should such be desired.

Under these circumstances, having regard to the effect of the publicity of what took place in London, and the expense which should of necessity be incurred to sustain a prosecution here, it is a matter for the consideration of the Commissioners whether any further steps should be taken in the matter. The woman, Catherine Nevin, is now in London, and we have made arrangements to have her forthcoming up to the end of next week in case she should be wanted.

Awaiting further instructions,

We are, &c.

To B. Banks, Esq., Chief Clerk. (signed) *Geale & Dwyer.*

No. 37.—Copy Report of Proceedings referred to in foregoing Letter (extracted from the "Times" Newspaper.)

Marlborough-street.—Mr. E. Dillon Lewis stated to Mr. Knox that he appeared on behalf of the Poor Law Commissioners of Ireland, to support an application for a warrant against George Legon, who had brought himself within the provisions of the 26 & 27 Vict. c. 89, the 4th section of which enacted, "That any person being employed in the execution of a warrant duly issued under the authority of the said Acts or either of them, who shall wilfully desert any person mentioned therein before he or she shall have been conveyed to the place of destination, shall be guilty of a misdemeanour, and, upon conviction thereof, shall be liable to a fine not exceeding 10 *l.*, and, in default of payment, to imprisonment for a term not exceeding three months." The various Boards of guardians in the London districts contracted with a person named Frost, living at Wapping, who undertook the task of conveying paupers to their place of settlement at the rate, he believed, of 3 *l.* 10 *s.* for each adult person. It was obvious that, under such an arrangement, the conductor would desire to realize as large a profit as possible, therefore, the funds he would give to his "conductors" would necessarily be scanty. In turn, the contractor would try to get something for himself, and thus the paupers would be pressed on all sides. In the present case, John Legon, one of Frost's conductors, was selected to carry into effect a warrant granted by Mr. Tyrwhitt in August last, for the removal of a woman and her three young children to the Union of Loughrea, in the county of Galway. Legon accompanied the paupers as far as Dublin, and then he hurried them to a police court, refusing to allow them to partake of any refreshment, although the woman, who had been very ill during the passage, complained of exhaustion. Legon applied to a magistrate to have his warrant endorsed, no doubt with the intention of passing off the magistrate's endorsement as a sufficient guarantee that he had discharged his task, and as a satisfaction to persons in this country that it was with a magistrate's sanction he had left the paupers in Dublin. The magistrate, however, not only refused to make the endorsement, but remonstrated with Legon for his conduct. It was, therefore, clear that Legon knew if he failed to take the paupers to their destination he would be acting illegally. Legon, however, took the paupers to a house in a small street in Dublin, paid the landlady 1 *s.* 6 *d.* for one night's lodging, and went away, promising to return the next day and convey them to Loughrea. The man, Legon, never returned, and after waiting four or five days, the woman, being without money, contrived to get enough to buy food with by doing a little washing. The family were, however, subjected to such privations that one of the children died. Legon returned to England, leaving the paupers in Dublin, and he would submit that in so doing Legon had been guilty of desertion under the statute, and that he was justified in asking for a warrant against him.

Mr. Knox said a grievous offence had been committed. He was most anxious to render assistance if he could legally do so; but, upon reference to the section of the Act, he was of opinion he had no jurisdiction, the offence having been committed in Ireland, and the Act in question only extending to England and Wales.

Mr. E. D. Lewis contended that the magistrate had jurisdiction, and cited cases and other matters in support of his argument.

Mr. Knox was not convinced, and declined to grant a warrant.

Mr. E. D. Lewis said the Poor Law Board, whom he represented, had come forward on public grounds only, and the application would have the good effect that the publicity which he hoped would be given to it would serve to show how the destitute were treated, and how the Act in question was virtually inoperative, inasmuch as Irish magistrates were reluctant to issue warrants against persons residing in England, except for very serious offences.

Mr.

Mr. Dwyer, solicitor to the Irish Poor Law Board, confirmed Mr. Lewis's statement, and added that even when warrants were issued in Ireland the case was stopped by the prosecution being called upon to prove the signature of the English magistrate and the execution of the warrants.

23 March 1866.

Sir,

ADVERTING to the previous correspondence respecting the removal to Loughrea of a woman named "Catherine Nevin," and her three children, from the Ecclesball Bierlow Union, and on two previous occasions from Metropolitan unions, on both of which she was deserted by the parties entrusted with the execution of the warrant, the Commissioners for

for administering the laws for relief of the poor in Ireland desire to state, for the information of the Board of Guardians of Loughrea Union, that they deemed it desirable to institute proceedings under the 26 & 27 Vict. c. 89, s. 4, against "Gorge Legon," who was ascertained to be the person entrusted with the execution of one of the warrants in question, namely, that obtained by the guardians of the parish of St. George's, Hanover-square.

The woman having been accordingly traced, after her return to England, and George Legon identified as the person in fault, proceedings were instituted in London, but without effect, owing to the want of jurisdiction, the offence charged before the magistrates having occurred in Ireland.

Proceedings were then taken in Ireland, and the result has been, as the guardians will see from the enclosed copy of a communication from the Commissioners' solicitors, the infliction of a penalty of 10 *l.* on George Legon, or, in default, three months' imprisonment.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1865), the number contained in the two classes was 2·6 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

The numbers in the last Table represent *complete* divisions; as it was impossible, from the manner in which the census of occupations is compiled, to make the same adjustment, in respect of the unreturned parishes, as that effected for the first Table.

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

MAY 1865 and 1866.

Ordered, by The House of Commons, *to be Printed,*
18 *July* 1866.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1865), the number contained in the two classes was 2·6 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

Parishes; and, the Area and Population ascribable to each Division; but so far only as represented by the Weekly Returns:

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1865), the number contained in the two classes was 2·6 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

JULY 1865 and 1866.

Ordered, by The House of Commons, *to be Printed,* 18 *July* 1866.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1865), the number contained in the two classes was 2·6 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

AUGUST 1865 and 1866.

Ordered, by The House of Commons, *to be Printed*,
18 *July* 1866.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1865), the number contained in the two classes was 2·6 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

2d. ——————— ; the comparative pauperism of the quarter.

3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS; the comparative pauperism of the quarter.

4th. THE METROPOLIS; the comparative pauperism of the quarter.

1.—In the 1st Table, each week is compared with the one immediately preceding it; 841,489 were the numbers relieved in the last week of June (Midsummer); but in the 4th week of September (Michaelmas) the numbers were 842,860; which is an increase of 1,371, or 0·2 per cent. more at Michaelmas than Midsummer.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1865), the number contained in the two classes was 2·6 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

OCTOBER 1865 and 1866.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1865), the number contained in the two classes was 2·6 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

NOVEMBER 1865 and 1866.

Ordered, by The House of Commons, *to be Printed,*
18 *July* 1866.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1865), the number contained in the two classes was 2·6 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1866), the number contained in the two classes was 3·0 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

JANUARY 1866 and 1867.

Ordered, by The House of Commons, *to be Printed,*
18 *July* 1866.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1866), the number contained in the two classes was 3·0 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

Parishes; and, the Area and Population ascribable to each Division; but so far only as represented by the Weekly Returns:

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

FEBRUARY 1866 and 1867.

Ordered, by The House of Commons, *to be Printed,*
18 *July* 1866.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1866), the number contained in the two classes was 3·0 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

The Returns of the Number of Paupers relieved on the *last day* of each Week, do not include the "Lunatic Paupers in Asylums and Licensed Houses;" nor, the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1866), the number contained in the two classes was 3·0 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number, to the same degree, as the other classes of Paupers; and the number of Vagrants, relieved by the Unions throughout the country, has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are, at present, 14,886* parishes, inclusive of the Scilly Islands, in England and Wales, maintaining, or liable to maintain their own poor: returns of pauperism are received, weekly, in respect of 14,695 of that number; 191 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43rd Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following view:

No. 1.—Remarks on the Returns of Pauperism, 1st July 1866.

The present Publication contains the Tabulated Returns of 655 Unions and Single Parishes under Boards of Guardians; but in respect of two places, namely, the Incorporation of Shrewsbury and that of Montgomery and Pool, the Returns are limited to the number of *In-door* Paupers relieved.

Pauperism 1st July.

The aggregate population of the 655 places by the Census of 1861, is 19,886,104; and the total number of Paupers on the 1st July 1866, is—

In-door.*	Out-door.	Total.
123,707	757,741	881,448

This gives the proportion of Paupers as 1 in 23; or 4·4 per cent. on the actual population.

Comparison of 1st July 1866 and 1865.

Comparing the numbers returned on the 1st July 1866 with those at the same date in 1865, the figures stand thus:—

DATE.		Number of Unions, &c.	In-door Paupers.	Out-door Paupers.	TOTAL.
1st July	1865	655	121,700	769,591	891,291

* This total of the out-door paupers differs from that stated above, in consequence of the number who were relieved on the 1st July, both in and out of the workhouse on that day, not being accounted for here; and also by reason of the inclusion of some medical relief cases that cannot be classified.

The Population, according to the Census of 1861, is printed opposite to each Union.

FREDERICK PURDY,
Principal of the Statistical Department.

Poor Law Board, Whitehall,
11 October 1866.

No. 2.—REMARKS on the INDUSTRIAL STATISTICS of 1861.

Industrial Statistics.

THE publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders*," are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders*," marked by a larger numeral (2); and, that, the Orders are collected into "*Classes*," marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government, and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men. Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

ORDER 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders* 4 *and* 5). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

ORDER 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

„ 5. *Persons engaged in entertaining and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article, like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

ORDER 6. *Persons who buy or sell, keep or lend Money, Houses, or Goods of various Kinds.*

„ 7. *Persons engaged in the Conveyance of Men, Animals, Goods, and Messages.*

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

ORDER 8. *Persons possessing or working the Land, and engaged in growing Grain, Fruits, Grasses, Animals, and other Products.*

„ 9. *Persons engaged about Animals.*

V.—INDUSTRIAL CLASS.

(*Orders* 10, 11, 12, 13, 14, *and* 15). *Technici.*

"This is the Class of makers or artisans. They deal in matter that is either no longer living, or that never lived. They alter the form, texture, or composition of the materials in which they work, so as to produce a great variety of goods, instruments, and machines. Their pay and profits are charged in the price of commodities; the wages of the workmen being advanced by their masters.

"This Class is grouped according to the materials, distinguishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, making products of various materials, derived from the three kingdoms, such as coaches, ships, workshops, factories, houses, and their furniture or other contents.

"Then follow the persons engaged in the textile fabrics (Order 11.). Wool, silk, cotton, flax, and hemp, are durable, and divisible; their manufacture admits of the sub-division of labour and the application of machinery. The workers in these materials are the essentially manufacturing class. In a Sub-order (4.) are the artisans who convert the manufactured fabrics, and some other matters, into dress.

"Human food, drinks, and stimulants, derived from the animal and vegetable kingdoms, occupy a distinct Order (12.), sub-divided into three Sub-orders.

"Then follow (13.) the persons chiefly or exclusively working and dealing in other animal substances than food (14.), those working and dealing in vegetable substances, and (15.), those working and dealing chiefly in minerals and metals. The first Sub-order of the latter Order (15.) includes the mining population of every kind; the other thirteen Sub-orders include the chief workers in the metals and minerals, beginning with coal and ending with steel."

ORDER 10. *Persons engaged in Art and Mechanic Productions, in which Matters of various Kinds are employed in combination.*

„ 11. *Persons working and dealing in the Textile Fabrics and in Dress.*

„ 12. *Persons working and dealing in Food and Drinks.*

„ 13. *Persons working and dealing in Animal Substances.*

„ 14. *Persons working and dealing in Vegetable Substances.*

„ 15. *Persons working and dealing in Minerals.*

VI.—INDEFINITE AND NON-PRODUCTIVE CLASS.

(*Orders* 16, 17, *and* 18).

"The last Class includes the numbers returned in a vague way, so as to scarcely admit of classification among either the professional, the domestic, the commercial, the agricultural, or the industrial classes.

"It embraces the totally distinct Orders of general labourers (16.), persons of property returned as of no occupation (17.), and persons supported by the community (18.). Many of the persons in Orders 16 and 17 properly belong to the other classes."

ORDER 16. *Labourers and others—Branch of Labour undefined.*

„ 17. *Persons of Rank or Property not returned under any Office or Occupation.*

„ 18. *Persons supported by the Community, and of no specified Occupation.*

Other Persons of no stated Occupation or Condition.

The relation of the new to the old classification is briefly exhibited by the following Synoptical Table :—

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages; at the same time, the special designation of the chief industries pursued in the various Unions according to the Census of 1851, has been retained in the place it originally filled in these Returns.

Ratio of Occupations.

The absolute, as well as the proportional numbers of the adult population under the Six Industrial Classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales.

No. 1.—Remarks on the Returns of Pauperism, 1st January 1867.

The present Publication contains the Tabulated Returns of 655 Unions and Single Parishes under Boards of Guardians; but in respect of two places, namely, the Incorporation of Shrewsbury and that of Montgomery and Pool, the Returns are limited to the number of *In-door* Paupers relieved.

Pauperism 1st January.

The aggregate population of the 655 places by the Census of 1861, is 19,886,104; and the total number of Paupers on the 1st January 1867, is—

In-door.	Out-door.*	Total.*
148,195	815,815	964,010

* With the "out-door" paupers are included 459 who received medical relief only, and these cases were not otherwise classified. In the "total" 810 paupers who were relieved both in-door and out-door on the 1st January are entered, making the net total of persons 963,200.

This gives the proportion of Paupers as 1 in 21; or 4·8 per cent. on the actual population.

Comparison of 1st January 1867 and 1866.

Comparing the numbers returned on the 1st January 1867 with those at the same date in 1866, the figures stand thus:—

Date.		Number of Unions, &c.	In-door Paupers.	Out-door Paupers.†	TOTAL.†
1st January -	1866	655	141,152	783,661	924,813
	1867	655	148,195	815,005	963,200

† Exclusive of those relieved both in-door and out-door on 1st January.

The Population, according to the Census of 1861, is printed opposite to each Union.

FREDERICK PURDY,
Principal of the Statistical Department.

Poor Law Board, Whitehall,
11 July 1867.

No. 2.—REMARKS on the INDUSTRIAL STATISTICS of 1861.

Industrial Statistics.

THE publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders,*" are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders,*" marked by a larger numeral (2); and, that, the Orders are collected into "*Classes,*" marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government, and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men. Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

ORDER 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders 4 and 5*). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

ORDER 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

„ 5. *Persons engaged in entertaining and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article, like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

ORDER 8. *Persons possessing or working the Land, and engaged in growing Grain, Fruits, Grasses, Animals, and other Products.*

„ 9. *Persons engaged about Animals.*

"This Class is grouped according to the materials, distin guishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, makin products of various materials, derived from the three kingdom such as coaches, ships, workshops, factories, houses, and thei furniture or other contents.

"Then follow the persons engaged in the textile fabric (Order 11.). Wool, silk, cotton, flax, and hemp, are durable and divisible; their manufacture admits of the sub-division o labour and the application of machinery. The workers in thes materials are the essentially manufacturing class. In a Sub order (4.) are the artisans who convert the manufactured fabrics and some other matters, into dress.

"Human food, drinks, and stimulants, derived from th animal and vegetable kingdoms, occupy a distinct Order (12.) sub-divided into three Sub-orders.

Th first Sub-order of the latter Order (15.) includes the minin population of every kind; the other thirteen Sub-orders includ the chief workers in the metals and minerals, beginning wit coal and ending with steel."

ORDER 10. *Persons engaged in Art and Mechanic Production in which Matters of various Kinds are employed i combination.*

"It embraces the totally distinct Orders of general labourer (16.), persons of property returned as of no occupation (17.), an persons supported by the community (18.). Many of the per sons in Orders 16 and 17 properly belong to the other classes."

ORDER 16. *Labourers and others—Branch of Labour undefined.*

„ 17. *Persons of Rank or Property not returned und any Office or Occupation.*

„ 18. *Persons supported by the Community, and of no sp cified Occupation.*

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages; at the same time, the special designation of the chief industries pursued in the various Unions according to the Census of 1851, has been retained in the place it originally filled in these Returns.

Ratio of Occupations.

The absolute, as well as the proportional numbers of the adult population under the Six Industrial Classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales.

Poor Law Board,
10 April 1867.

FREDERICK PURDY,
Principal of the Statistical Department.

No. 2.—REMARKS on the Industrial Statistics of 1861.

Industrial Statistics.

The publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders,*" are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders,*" marked by a larger numeral (2); and, that, the Orders are collected into "*Classes,*" marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government, and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men. Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

Order 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders* 4 *and* 5). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

ORDER 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

„ 5. *Persons engaged in entertaining and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article, like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

ORDER 6. *Persons who buy or sell, keep or lend Money, Houses, or Goods of various Kinds.*

„ 7. *Persons engaged in the Conveyance of Men, Animals, Goods, and Messages.*

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

ORDER 8. *Persons possessing or working the Land, and engaged in growing Grain, Fruits, Grasses, Animals, and other Products.*

„ 9. *Persons engaged about Animals.*

V.—INDUSTRIAL CLASS.

(*Orders* 10, 11, 12, 13, 14, *and* 15). *Technici.*

"This is the Class of makers or artisans. They deal in matter that is either no longer living, or that never lived. They alter the form, texture, or composition of the materials in which they work, so as to produce a great variety of goods, instruments, and machines. Their pay and profits are charged in the price of commodities; the wages of the workmen being advanced by their masters.

"This Class is grouped according to the materials, distinguishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, making products of various materials, derived from the three kingdoms, such as coaches, ships, workshops, factories, houses, and their furniture or other contents.

"Then follow the persons engaged in the textile fabrics (Order 11.). Wool, silk, cotton, flax, and hemp, are durable and divisible; their manufacture admits of the sub-division of labour and the application of machinery. The workers in these materials are the essentially manufacturing class. In a Sub-order (4.) are the artisans who convert the manufactured fabrics and some other matters, into dress.

"Human food, drinks, and stimulants, derived from the animal and vegetable kingdoms, occupy a distinct Order (12.) sub-divided into three Sub-orders.

"Then follow (13.) the persons chiefly or exclusively working and dealing in other animal substances than food (14.) those working and dealing in vegetable substances, and (15.) those working and dealing chiefly in minerals and metals. The first Sub-order of the latter Order (15.) includes the mining population of every kind; the other thirteen Sub-orders include the chief workers in the metals and minerals, beginning with coal and ending with steel."

ORDER 10. *Persons engaged in Art and Mechanic Productions in which Matters of various Kinds are employed in combination.*

„ 11. *Persons working and dealing in the Textile Fabrics and in Dress.*

„ 12. *Persons working and dealing in Food and Drinks.*

„ 13. *Persons working and dealing in Animal Substances.*

„ 14. *Persons working and dealing in Vegetable Substances.*

„ 15. *Persons working and dealing in Minerals.*

VI.—INDEFINITE AND NON-PRODUCTIVE CLASS.

(*Orders* 16, 17, *and* 18).

"The last Class includes the numbers returned in a vague way, so as to scarcely admit of classification among either the professional, the domestic, the commercial, the agricultural, or the industrial classes.

"It embraces the totally distinct Orders of general labourers (16.), persons of property returned as of no occupation (17.), and persons supported by the community (18.). Many of the persons in Orders 16 and 17 properly belong to the other classes."

ORDER 16. *Labourers and others—Branch of Labour undefined.*

„ 17. *Persons of Rank or Property not returned under any Office or Occupation.*

„ 18. *Persons supported by the Community, and of no specified Occupation.*

Other Persons of no stated Occupation or Condition.

The relation of the new to the old classification is briefly exhibited by the following Synoptical Table :—

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages.

Ratio of Occupations.

The absolute, as well as the proportional numbers of the adult population under the Six Industrial Classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales.

Poor Law Board,
19 July 1867.

FREDERICK PURDY,
Principal of the Statistical Department.

No. 2.—REMARKS on the INDUSTRIAL STATISTICS of 1861.

Industrial Statistics.

THE publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders,*" are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders,*" marked by a larger numeral (2); and, that, the Orders are collected into "*Classes,*" marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government, and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men. Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

ORDER 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders* 4 *and* 5). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

ORDER 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

" 5. *Persons engaged in entertaining and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article, like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

ORDER 6. *Persons who buy or sell, keep or lend Money, Houses, or Goods of various Kinds.*

" 7. *Persons engaged in the Conveyance of Men, Animals, Goods, and Messages.*

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

ORDER 8. *Persons possessing or working the Land, and engaged in growing Grain, Fruits, Grasses, Animals, and other Products.*

" 9. *Persons engaged about Animals.*

V.—INDUSTRIAL CLASS.

(*Orders* 10, 11, 12, 13, 14, *and* 15). *Technici.*

"This is the Class of makers or artisans. They deal in matter that is either no longer living, or that never lived. They alter the form, texture, or composition of the materials in which they work, so as to produce a great variety of goods, instruments, and machines. Their pay and profits are charged in the price of commodities; the wages of the workmen being advanced by their masters.

"This Class is grouped according to the materials, distinguishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, making products of various materials, derived from the three kingdoms such as coaches, ships, workshops, factories, houses, and their furniture or other contents.

"Then follow the persons engaged in the textile fabrics (Order 11.). Wool, silk, cotton, flax, and hemp, are durable and divisible; their manufacture admits of the sub-division of labour and the application of machinery. The workers in these materials are the essentially manufacturing class. In a Sub-order (4.) are the artisans who convert the manufactured fabrics and some other matters, into dress.

"Human food, drinks, and stimulants, derived from the animal and vegetable kingdoms, occupy a distinct Order (12.), sub-divided into three Sub-orders.

"Then follow (13.) the persons chiefly or exclusively working and dealing in other animal substances than food (14.), those working and dealing in vegetable substances, and (15.), those working and dealing chiefly in minerals and metals. The first Sub-order of the latter Order (15.) includes the mining population of every kind; the other thirteen Sub-orders include the chief workers in the metals and minerals, beginning with coal and ending with steel."

ORDER 10. *Persons engaged in Art and Mechanic Productions, in which Matters of various Kinds are employed in combination.*

" 11. *Persons working and dealing in the Textile Fabrics and in Dress.*

" 12. *Persons working and dealing in Food and Drinks.*

" 13. *Persons working and dealing in Animal Substances.*

" 14. *Persons working and dealing in Vegetable Substances.*

" 15. *Persons working and dealing in Minerals.*

VI.—INDEFINITE AND NON-PRODUCTIVE CLASS.

(*Orders* 16, 17, *and* 18).

"The last Class includes the numbers returned in a vague way, so as to scarcely admit of classification among either the professional, the domestic, the commercial, the agricultural, or the industrial classes.

"It embraces the totally distinct Orders of general labourers (16.), persons of property returned as of no occupation (17.), and persons supported by the community (18.). Many of the persons in Orders 16 and 17 properly belong to the other classes."

ORDER 16. *Labourers and others—Branch of Labour undefined.*

" 17. *Persons of Rank or Property not returned under any Office or Occupation.*

" 18. *Persons supported by the Community, and of no specified Occupation.*

Other Persons of no stated Occupation or Condition.

The relation of the new to the old classification is briefly exhibited by the following Synoptical Table :—

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages.

Ratio of Occupations.

The absolute, as well as the proportional numbers of the adult population under the Six Industrial Classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales.

No. 1.—REMARKS ON THE ANNUAL POOR RATE RETURN, YEAR ENDED LADY-DAY 1866.

The present Return is the *fifty-ninth* annual publication of the Poor Rate Returns. **Series of Returns.**

This Return is, in respect of the number of places which it represents, the most complete of the Statistics of Pauperism; for in it the sums levied and expended as Poor Rates throughout the whole of England and Wales are exhibited; excepting only some small Parishes, which are stated by the overseers either to have "No poor," or to make no levy "yet." **Extent of the Return.**

The Net Annual Value of Property assessed to the Poor's Rate has been returned in respect of five parochial years. "The Gross Estimated Rental" is also returned for the last two of these years. **Valuations to the Poor Rates.**

* The details of these Valuations will be found in the following Papers, printed by order of the House of Commons; viz., No. 235, "Real Property," 1842; No. 735, "Poor Rates, &c." 1848; No. 539, "Poor Rate Assessment," 1852; No. 63, "Population, &c. of Parishes," 1858; and No. 251, "Population, Inhabited Houses, &c.," 1859. The "Gross Estimated Rental," and the "Rateable Value" for each Parish is given with respect to the Parochial year 1856 in No. 491, "Poor Rates, &c.," Session 1861; and in the "Electoral Returns" of 1865-66, presented by command of Her Majesty.

Large proportion of Expenditure for purposes unconnected with Relief.

The greater part of the expenditure, described in the last Table as for "All other Purposes," consists of payments which have no connexion whatever with relief to the poor. This part of the Poor-Rate Expenditure, which is foreign to the object originally contemplated in the enactment of the rate, has greatly increased since the passing of the Poor Law Amendment Act in 1834, in consequence of the imposition of new and the augmentation of old charges. The next Table exhibits, separately, all the charges referred to, so far as the returns permit. The heaviest item is the disbursement in respect of the "County, Hundred, Borough, or Police Rate."

About

About *one-third* of the whole Poor Rates now levied are expended for purposes unconnected with Relief to the Poor. Besides the charges here shown, there are some others paid out of the Rate, but which are not discriminated, such as the expenses incurred for sanitary purposes, and the cost of providing new Burial Grounds.

The principal heads of expenditure, which constitute "Relief to the Poor," are shown in the next Table, together with the average price of wheat for the four years.

Medical Relief.

The column in the Return, which succeeds that of "Total Expenditure," contains the expense of *Medical Relief* only; this consists of salaries to the Medical Officers; extra Medical Fees paid to them under the General Consolidated Order; also, the cost (if any) of medical and surgical appliances, and drugs. The sums in this column are not additional to those given in Column 4, § A, of the Return; because, the various items of Medical Relief are included in sub-columns (*e*) or (*f*), as forming a portion of the "Relief to the Poor:" the "Medical Relief" is printed separately, as indicating an important and special subject of Poor Law administration.

The sums expended under this head during the last four years were as follows:

For 1862–63 - - - - - - -	£. 248,286
1863–64 - - - - - - - -	253,204
1864–65 - - - - - - - -	259,833

School Districts.

Twenty-six Unions and single Parishes, chiefly Metropolitan, are combined into School Districts; the contributions which each Union makes to the Treasurer of its district are included in the other items of relief, and, as such, entered in the proper columns of the Poor Rate Return; this, then,

then, like the Medical Relief, does not represent any additional expenditure, having been heretofore properly included in the amounts printed opposite to the respective Unions concerned.

The sums contributed to the School Districts; and, the sums expended by each district during the parochial year 1865-66, are contained in the subjoined Table:—

Poor Law Board,
13 April 1867.

FREDERICK PURDY,
Principal of the
Statistical Department.

No. 2.—REMARKS on the Industrial Statistics of 1861.

Industrial Statistics.

The publication of the Occupations Census of 1861 has rendered it necessary to effect a change both in the form and the matter of the "Industrial Statistics," which, since 1857, has formed part of the series of Papers periodically laid before Parliament by the Poor Law Board under the title of "Poor Rates and Pauperism."

New classification of the Occupations of the People.

An explanation of the classes under which the occupations of the people in 1851 were arranged has prefaced the previous numbers of this Series, and therefore need not be repeated. The classification of 1861 differs in several important particulars from that previously employed by the Commissioners of the Census. The new system can be best explained in the words of its author,* premising that, in Dr. Farr's Report on the "Classification of Producers," the lowest groups, termed "*Sub-Orders,*" are marked with a small Arabic numeral (2); that, these Sub-Orders are gathered up into "*Orders,*" marked by a larger numeral (2); and, that, the Orders are collected into "*Classes,*" marked by a Roman figure (II.)

CLASSIFICATION OF PRODUCERS.

I.—PROFESSIONAL CLASS.

(*Orders* 1, 2, 3). *Andrici.*

"This great class includes those persons who are rendering direct service to mankind, and satisfying their intellectual, moral, and devotional wants.

"The three first Orders consist of civil servants, national or local; the army and navy; the learned professions, with their immediate subordinates; literary and scientific men, as well as artists in the widest sense.

"The first Order (1; 1) includes the members of the Government, and the civil service; (2) the police and other local officers; and (3) the East India and Colonial Service.

"The army (2; 1) and navy (2; 2) are in the service of the Government, and are intimately connected with it in all states. And the clergy in the Established Church, as well as the lawyers in the courts of justice, are in official subordination to the Sovereign; but the great majority of the members of these professions are neither nominated nor paid by the Crown. Like the medical, the literary, and the scientific professions, which were at one time included in the Church, and were supported by its livings, the clergy and lawyers assert their independence, and are, therefore, made separate Sub-orders. So are authors, artists, musicians, actors, teachers, and scientific men. Nearly all the members of the class are paid directly for their services; and these services have no intermediary, being rarely fixed in any commodity. The pay varies in each Order, and it is either proportional to the time (salary, wages, pay), the job (fees), or the quality and quantity of work done (piecework)."

Order 1. *Persons engaged in the General or Local Government of the Country.*

" 2. *Persons engaged in the Defence of the Country.*

" 3. *Persons engaged in the Learned Professions or engaged in Literature, Art, and Science* (with their immediate Subordinates).

II.—DOMESTIC CLASS.

(*Orders* 4 *and* 5). *Oikici.*

"The persons in this Class are all employed, if they are employed at all, in houses. Some supply simply service, others with it supply board and lodging (Order 5). They are paid wages (servants), or they are paid for the board and lodging and attendance which they supply. The publicans and beersellers are so much associated and so often confounded with hotel and inn keepers that they are retained in the same Order; although the Order dealing in 'drinks' may claim them. The wife and grown-up children (Order 4) perform at home for the bulk of the population the same duties as the persons in Order 5; but they are not paid directly in money for their services, as they form a part of the natural family; consequently they are distinguished in a separate Order. The very young children properly belong to the non-productive class, and they may there constitute a section; scholars and other children are learning the

* *See* Dr. Farr's account of the "New Classification of the People according to their Employment."—Census of England and Wales, 1861, Vol. III., pp. 225 *et seq.*

the elements of their future occupations; but until that occupation is determined they remain in the same Order as their mothers."

ORDER 4. *Persons engaged in the Domestic Offices or Duties of Wives, Mothers, Mistresses of Families, Children, Relatives* (not otherwise returned).

" 5. *Persons engaged in entertaining and performing Personal Offices for Man.*

III.—COMMERCIAL CLASS.

(*Orders* 6 *and* 7). *Agorici.*

"The merchant buys any article, like tea, abroad, transports it to England, and there sells it. He performs the like operation at home. But as a merchant he effects no change in any of the commodities in which he deals. He buys and sells, and is paid for his services by a varying but rated profit on the goods.

"The carrying order convey commodities, passengers, and messages by land or water, from one place to another. They also warehouse goods. They are paid for their services in fares, freight, and charges which bear some proportion to the weight, bulk, and other properties of the goods. They are all in Order 7, and are closely related to the Order preceding; hence the two Orders (6–7) together may be called the Commercial Class."

ORDER 6. *Persons who buy or sell, keep or lend Money, Houses, or Goods of various Kinds.*

" 7. *Persons engaged in the Conveyance of Men, Animals, Goods, and Messages.*

IV.—AGRICULTURAL CLASS.

(*Orders* 8 *and* 9). *Georgici.*

"We now come to a great class which is employed in producing grain, fruit, grass, animals, and other products from the soil. They may be called growers; for their products grow and are obtained from the living kingdoms of nature. The heads of the Class are paid, not directly for their services, but indirectly in the price of the products which they sell in the market or elsewhere. Thus the price of a quarter of wheat includes the pay of the services of all the persons employed in its production as well as the cost of the tools and machines, including the land, by means of which it is produced and brought to market. Agricultural servants and labourers are paid in wages which the farmers advance. The persons engaged in gardens or woods are in separate Sub-orders.

"The men in Order 9 are employed in catching, training, or dealing in living animals of various kinds. They are the representatives of the hunters of the early stages of civilization, and may be considered an appendage to the previous pastoral and agricultural class, so forming Class IV., which thus includes hunting tribes, the pastoral clans and the agricultural people of the world."

ORDER 8. *Persons possessing or working the Land, and engaged in growing Grain, Fruits, Grasses, Animals, and other Products.*

" 9. *Persons engaged about Animals.*

V.—INDUSTRIAL CLASS.

(*Orders* 10, 11, 12, 13, 14, *and* 15). *Technici.*

"This is the Class of makers or artisans. They deal in matter that is either no longer living, or that never lived. They alter the form, texture, or composition of the materials in which they work, so as to produce a great variety of goods, instruments, and machines. Their pay and profits are charged in the price of commodities; the wages of the workmen being advanced by their masters.

"This Class is grouped according to the materials, distinguishing those derived from the three kingdoms of nature.

"The first Order (10.) of the Class includes artisans, making products of various materials, derived from the three kingdoms, such as coaches, ships, workshops, factories, houses, and their furniture or other contents.

"Then follow the persons engaged in the textile fabrics (Order 11.). Wool, silk, cotton, flax, and hemp, are durable, and divisible; their manufacture admits of the sub-division of labour and the application of machinery. The workers in these materials are the essentially manufacturing class. In a Sub-order (4.) are the artisans who convert the manufactured fabrics, and some other matters, into dress.

"Human food, drinks, and stimulants, derived from the animal and vegetable kingdoms, occupy a distinct Order (12.), sub-divided into three Sub-orders.

"Then follow (13.) the persons chiefly or exclusively working and dealing in other animal substances than food (14.), those working and dealing in vegetable substances, and (15.), those working and dealing chiefly in minerals and metals. The first Sub-order of the latter Order (15.) includes the mining population of every kind; the other thirteen Sub-orders include the chief workers in the metals and minerals, beginning with coal and ending with steel."

ORDER 10. *Persons engaged in Art and Mechanic Productions, in which Matters of various Kinds are employed in combination.*

" 11. *Persons working and dealing in the Textile Fabrics and in Dress.*

" 12. *Persons working and dealing in Food and Drinks.*

" 13. *Persons working and dealing in Animal Substances.*

" 14. *Persons working and dealing in Vegetable Substances.*

" 15. *Persons working and dealing in Minerals.*

VI.—INDEFINITE AND NON-PRODUCTIVE CLASS.

(*Orders* 16, 17, *and* 18).

"The last Class includes the numbers returned in a vague way, so as to scarcely admit of classification among either the professional, the domestic, the commercial, the agricultural, or the industrial classes.

"It embraces the totally distinct Orders of general labourers (16.), persons of property returned as of no occupation (17.), and persons supported by the community (18.). Many of the persons in Orders 16 and 17 properly belong to the other classes."

ORDER 16. *Labourers and others—Branch of Labour undefined.*

" 17. *Persons of Rank or Property not returned under any Office or Occupation.*

" 18. *Persons supported by the Community, and of no specified Occupation.*

Other Persons of no stated Occupation or Condition.

The relation of the new to the old classification is briefly exhibited by the following Synoptical Table :—

	ORDER XVII.	Nearly identical with	CLASS XVI.	Persons of Rank *or* Property *not returned under any Office or Occupation.*
	ORDER XVIII.	Nearly identical with	CLASS XVII.	Persons *supported by the community, and of* no specified Occupation.

Selected Occupations.

In considering the occupations of the people in connexion with pauperism, the first class has been rejected, because, although it participates in the general welfare of the country, it experiences the vicissitudes of trade less directly than the others; and the last class, because it is indefinite, and therefore but little adapted to form any useful term of comparison within the field of pauper statistics. The ratio per cent. of persons aged 20 years and upwards ascribable to each of the six classes of occupations for all the Unions has, in the present instance, been computed for every Union by the Commissioners of the Census. The ratios of the *four* selected classes are printed opposite to the respective Unions in the following pages; at the same time, the special designation of the chief industries pursued in the various Unions according to the Census of 1851, has been retained in the place it originally filled in these Returns.

Ratio of Occupations.

The absolute, as well as the proportional numbers of the adult population under the Six Industrial Classes, are shown in the subjoined Table for each Division and for each Union-County, as published in the third volume of the Census of England and Wales.

1. THE Statistics of Pauper Insanity contained in this Paper have been compiled from the lists of "Lunatics, Idiots, and other Persons of Unsound Mind," who were chargeable to the Poor Rates on the 1st January 1867. These lists are made out annually by the Clerks to the Guardians, and transmitted to the Poor Law Board, in compliance with the 16 & 17 Vict. c. 97, s. 64, and in the form prescribed by Schedule D. of that Statute.

Places returned.

2. Returns have been received from 664* Unions and Single Parishes under Boards of Guardians. The Population of these places, according to the Census of 1861, is 20,021,422. The number of Insane Paupers chargeable to the Poor Rates in those places on that day is shown below :—
